MOU SIGNED BETWEEN TUV Rheinland Pvt Ltd and NGO Fundraisers on 20th Jan. 2010.

TUVdotCOM is the Internet platform for tested quality and safety. It documents all product properties, services, organisations and systems tested and personal certifications provided by the TÜV Rheinland Group. The service is available to NGOs of India, manufacturers, purchasers, wholesalers, retailers and consumers.

When Mr Sridhar conducted a fundraising workshop for NGOs in Bangalore in the month of Dec. 2009, a representative from TUV dot Com attended the program. He got interested in services offered by NGO Fundraisers and subsequently met Mr Sridhar in his office at Jayanagar. The dialogue opened up to offer ISO Certification to NGOs of India through NGO Fundraisers.

Alongside fundraising, NGO Fundraisers will now offer ISO Certification through TUV dot com which is an international organization based out of Germany, to NGOs of India who come forward to seek support from them.

An MOU was signed between two companies namely TUV Rheinland Pvt Ltd and NGO Fundraisers on the 20th Jan. 2009.

NGO Fundraisers will now offer ISO Certification to all existing NGOs besides promoting the same to the new NGOs who come forward to seek support.

One more feather in the cap of NGO Fundraisers.

In India if NGOs have to get their organization ISO certified by TUV Rheinland Pvt Ltd, the NGOs will have to go through NGO Fundraisers who will guide and take them through the process. All NGOs interested in getting their organization ISO Certified can write to gvs@ngofundraisers.com or contact our Mumbai and Chennai Office (contact details are available in contact us page).
